"alcalde" and former Mayor of San Antonio de Bexar. For many years, none were thought to have survived. In 2004, (5) were found in an old collection. Since then, (2) more have surfaced. This coin is one of the original (5) and was museum analyzed to it's copper origin. We auctioned another one of the (5) in 2011, where it sold for \$22,000.00. This issue is listed under Colonials in the Redbook. As all (5) found, this coin is Uncirculated! A very rare opportunity.
